## French Military Equipment Delivered to Ukraine

The data below show the quantitative list of French military equipment delivered to Ukraine from the start of Russia's war of aggression against Ukraine, on 24 February 2022, to 31 December 2023. French Military equipment delivered since 1 January 2024 is not included.

**All in all, the total value of French military equipment delivered to Ukraine amounts to € 2.615 billion.** In addition, France contributed € 1.2 billion to the European Peace Facility (EPF). Overall, this amounts to more than € 3.8 billion between 24 February 2022 and 31 December 2023.

In addition to this financial effort, France has provided training to Ukrainian troops, with nearly 10,000 Ukrainian soldiers trained by the French military in Poland and in France.

At the same time, France contributes to the security of the Eastern Flank of Europe by deploying land components to Romania as Framework Nation, and to Estonia, rotational air components to Lithuania and from mainland France, as well as a permanent maritime presence in the Baltic and Mediterranean Seas.
